WHY

The shift towards virtual spaces or metaverse is inevitable for consumers, yet there is a lack of user-friendly tools for mass access, especially on web.

70% of businesses plan to integrate the metaverse into their organisational activities

Art

Competitive advantages

First web space creation tool with AI customization

Built using native web technologies. Accessible from any device direct from browser

Outstanding mobile performance from browser

Tons of 3D content and avatar integrations to unleash imagination (RPM, VRoid, Sketchfab)

Simple multi-user experience. Web link like in Google Meet.

Education

Integrated Solutions:

THE PROBLEM

Despite the vital importance of financial education, studies show only 57% of Gen Z Americans are considered financially literate.

Traditional education in finance, entrepreneurship and investing is often fails to engage students. As young people become more accustomed to fast-paced, engaging media, this gap will continue to widen.

Founders

Stefan Waśkiewicz

Co-founder, CEO

Extensive experience in 3D engineering, CGI, and top-level management, having founded several companies and managed large teams in 3D graphics.

Sergey Svistunov

Co-founder, CTO

Ph.D. in Computer Science and extensive expertise in blockchain, web technologies, and founding multiple companies.

Aleks Shestakov

Co-founder, CMO

More than 20 years of experience in digital market, serial entrepreneur, strategist and marketer, Web3 enthusiast, MBA

Team

Our experienced team has over a decade of hands-on experience building and scaling web-based platforms, with a wealth of expertise in Web3 and metaverses.

We have founded successful service companies and have a unique insight into what works and what doesn't in this space.

Plus, we have an in-house development team and don't rely on subcontractors.
